Sponsor's Profit Structure With Standard Contract

Advance Sale of Tickets by Sponsor: The sponsor receives 40% of all advance sales made prior to circus day on sales over \$2,500.00. The sponsor receives 30% of all advance sales made prior to circus day on sales under \$2,500.00.

Circus Day Ticket Sales at Circus Ticket Office: Sponsor receives 10% of circus day ticket sales if their advance sale is between \$2,500.00 and \$3,500.00 dollars. Sponsor receives 20% of gate sales if their advance sale is more than \$3,500.00 dollars.

Sponsor's Profit Structure With Buyout Contract

With this type of contract, the Sponsor buys out the show and all performances for an agreed upon sum. The real advantage of the Buyout arrangement is a sponsor can make much more profit than can be made with the Standard Contract. Generally speaking, a sponsor can make almost double the normal profit on a Buyout Contract compared to a Standard Contract. The sponsor can set their own ticket prices to realize even more profit or to give the show to their community as a gift with no expectation of a profit.

As part of the advertising and promotion for the show, we will ask patrons to bring a food donation to the show. We will then turn over the donations to the local or regional food bank for distribution to local food pantries.

History of Circus Vidbel

The circus has been family owned and operated by the Vidbel family for 25 years. The founders, Joyce and Al Vidbel now manage the Winter Quarters in Windham, NY and the next generation of the family now own and manage the touring show. Susan Vidbel-Ashton, and husband Michael Ashton are on the show grounds at all times managing, performing and transporting the circus.

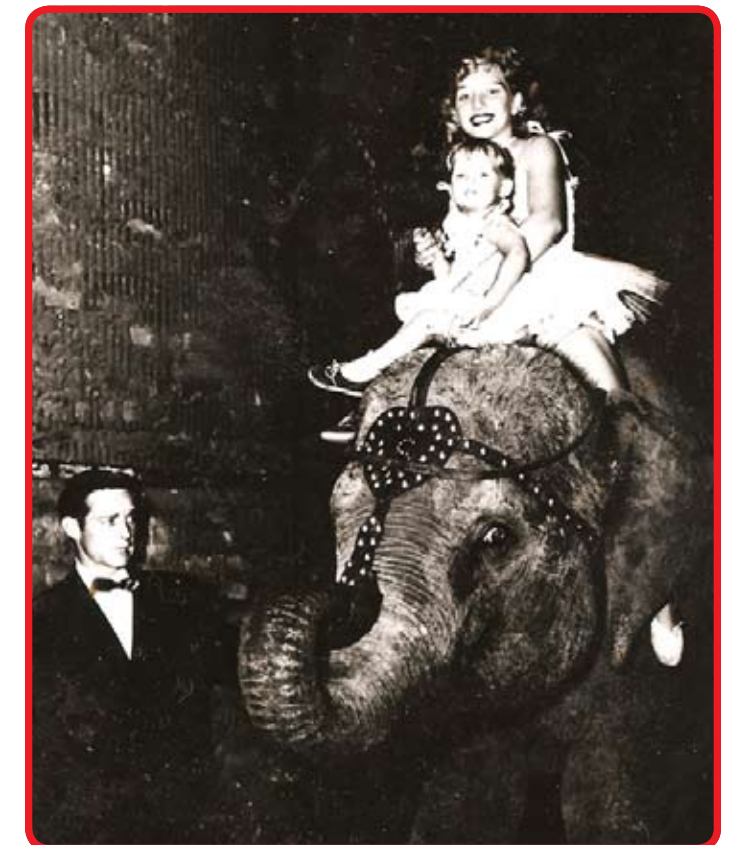

Mike and Miles Ashton excite the crowd with their fast paced risley act.
